### 9,000,000 MILES TO 1 ACCIDENT

Basing its figures on a compilation of the mileage represented by the gasoline on which taxes are paid, the Boston Transcript points out that every fatal accident involving a motor car in Massachusetts represents nine million miles of travel.

This seems convincing testimony that riding in automobiles is as safe as anybody would wish. On the other hand, there are the 30,000 annual deaths from automobile accidents that happen every year in the United States, a slaughter that should not be disregarded.

Suggestions include the separation of pedestrian and vehicular traffic, rigorous apprehension and punishment of drunken drivers and the stern application of licensing to drivers of automobiles.

Cucumbers grown in hot houses at Long Beach are now being shipped to northern cities, and fancy prices are being paid for them.

Bootleg liquor was responsible for 75 per cent of the tragedies which occurred during the holiday season.

Yes, Pauline, writing editorials is very simple; all you have to do is to sit down at a typewriter and write them.

Our idea of trouble is the resolution, passed by India, demanding complete independence from Great Britain.

The pessimist's idea of starting the New Year right was exemplified by the man in New York who committed suicide.

When we think of what the census will show we have a feeling of pity for some of those who have been making big population claims.

Mrs. Anna C. Moorhead has been appointed acting postmaster at Laurel, succeeding Asa A. Edwards, who tendered his resignation a few days since.

It looks as if the designers of women's apparel are bent on making their dresses longer. That's too bad,—as we had hoped they would continue shortening them.

Some folks go to extremes in order to gain a little publicity, but we believe the limit was reached by Mr. and Mrs. Green of Covington, La., last week when they reported their 3-week-old baby had been kidnapped and it being found a few days later in a negro woman's hut where it had been carried by its father.

Anna Mary Schleis, a Czechoslovakian immigrant, for seventeen years, a chamber maid in the home of Frank W. Savin, retired millionaire broker of New York became sole heir to his estate, valued at between ten and twenty million dollars, when he "kicked off" a few days since. She was lucky enough to marry him not so long ago.

The report to be made public shortly by the legislative committee which has been investigating the State highway commission is anxiously awaited not only by the people of Mississippi but more especially by the members of the commission, some of whom have already been shown to have profited from monies passing through their hands.

There were fewer lynchings in this country during 1929 than in any year of which there is any record, and it leads us to hope that the time will come when there will be no more of it. Speedy trial and punishment of criminals charged with grave crimes has no doubt been the cause in a decrease in lynchings.

A man was drowned in the Rigolets one night last week when the car he was driving at a speed of forty-odd miles per hour went through the guard rail and his companion was saved after swimming to a piling and later rescued by a ferry hand. The survivor claims that the drowned man was probably asleep when the car took the plunge.

It is claimed by Merle Thorp, editor of Nation's Business, that there are 1,900,000 federal, State and local laws on American statute books today, and during 1929 another 93,000 were introduced. It would be a good thing if a majority of them were wiped off the books and it would be a still better thing if there was little more observance of those left.

Senator Brookhart of Iowa thinks it is about time for Secretary Mellon to resign, as enforcement of the prohibition amendment is in his hands and he shows no inclination to do his duty in trying to dry up things. Could he be expected to, since he was interested (and perhaps is yet) in one of the largest whiskey distilleries in the country before adoption of prohibition?

A mass meeting was held at Hattiesburg a few nights since and resolutions were adopted for presentation to Governor Bilbo asking that pardons be issued to a score or more bootleggers who were convicted of the liquor law violations in Forest county. It is needless to say that the crowd at that particular mass meeting did not represent the decent, law-abiding and Christian element of Forest county's citizenship.

### BRO. PETER CHRISTMAS TREE

Every community more or less, no matter how small, has its community Christmas tree in order to make happy the little ones who otherwise might not know the supreme pleasures of the yule tide.

Aside from its religious aspect Christmas is largely a time of the year for the children. It is their season for happiness and joy in a special manner which no other means can take its place.

In Bay St. Louis, each year, save one, we have had a tree of this kind that has been sponsored by Bro. Peter, of St. Stanislaus college. This tree entertainment for the poor children of this section is strictly non-sectarian and in the strictest sense of the word a community gesture. It must be had every year—we owe it to the children as well as to ourselves to see that they get it—and in this connection The Echo does not think it amiss even at this time to name this entertainment the Bro. Peter Christmas Tree. Not Bro. Peter's Christmas tree, for in no sense, shape, form or manner is it his. Far from it. He would not have it this way. But we suggest in all best thought and with universal motive, that it might do the most good to the largest number, to name it his and as such to be known. It would carry a special significance as well; it would give it an individuality in name like nothing else, it would identify it and lastly it would prove a most popular designation. Let us hope that every year the kiddies will not be forgotten—that the Bro. Peter Christmas Tree will live on and flourish in order they may bask under its effulgent benevolence, radiating sunshine and joy in little hearts that too often circumstances in the home might cause to shut out.

### MISSISSIPPI AND OIL

A telegram appearing in the papers sent out from Vicksburg a few days ago, states that "recent progress in the oil and gas development program in Mississippi point with promise that 1930 will see this State placed in the column of oil producing states."

After commenting on the number of wells sunk during recent years in efforts to obtain oil, many of which were too shallow and improperly handled, it is affirmed that the major oil companies are now going to make a more thorough search for oil than has ever before been attempted.

The oil fraternity thinks and expects Mississippi to be the next wild cat State opened and from accounts in the oil journals and oil papers it will not be long until this is done.

There is no reason to think that our State is entirely barren of oil and mineral wealth, and when the great oil corporations have once determined to spend vast sums of money in their search for the same it will not be long before the existence or non-existence of such wealth is hidden in the bowels of the earth.

Let us all hope that success will come of their efforts.

### CONCERNING PROHIBITION

Enforcement of the prohibition law is again coming to the fore. Senator Borah is leading the charge of the shock troops of the dry command. He is a doughty warrior and the battle will be lively, while it lasts.

It begins to be reasonably apparent that a great impetus is coming in the effort to make the amendment effective. Washington expects pretty positive action from President Hoover, and Congress is sure to give him all the money and power that he asks for.

In the meantime the war between the bootleggers and the officers of the law continues, with deaths on both sides. If one takes the trouble to peruse the newspapers regularly the give and take blows will amaze.

Personally, we have never been fanatically in favor of prohibition. In the midst of conflicting assertions from wet and dry partisans, as to its effect upon the nation, we have wavered between modification and appreciation. However, we are willing to stand on this proposition, the law should be better enforced or modified. The present situation is intolerable.

### BEST "VOTE GETTER" GETS JOB

When fraud is committed to secure the election of any candidate it is bad enough, but when it is resorted to place a man on the bench it is still more reprehensible. It seems to have been done up in the first chancery court district of this State when it came to the election of a judge to fill the vacancy occasioned by the resignation of Judge Allen Cox. It is to be hoped that every man who had any part in holding the election at the Armory voting precinct, where it has been proven 225 illegal votes were counted, may be prosecuted and punished. If there is any branch of government which should be free of any taint of fraud it is the bench, and the present instance affords another strong argument against an elective judiciary. Under the old appointive system a venal and corrupt judge might occasionally get on the bench, but where their selection is left to the people it frequently happens that the best "vote getter" and least qualified man is chosen.

### RENDER UNTO CAESAR

The Mississippi Municipal Officers' Association is going to ask and fight for a share of the gasoline tax, as made known by a resolution adopted by that body. The resolution contends that it is unfair to spend a tax collected from city residents on roads entirely outside of the city, and holds that suburban motorists use city streets as much as city dwellers use rural roads. It seems to us that it is nothing more than right for the legislature to grant all that the municipal officers ask.

Two unidentified men were killed by drinking poisoned liquor at Lexington, Miss., New Year's day. A companion who also partook of the liquor was found near death's door but his life was saved through the efforts of a doctor.

The bag limit for ducks this year will be fifteen and after a hunter kills four geese he will be through for the day, so announces a ruling promulgated by the federal government a few days since.

### FIREWORKS AND FIREWATER

A great contention is going on in Washington these days over the prohibition question per se and the manner and extent of the enforcement of the dry law. Congressman Cochran of Missouri, as if there were not enough stewing in the pot, issued a "statement" in which he advocated a "dignified effort" by the wet group in congress to modify the act so as to permit manufacture—and presumably transportation, sale and purchase of hard and light wines, of a degree of intensity and content "not intoxicating in fact." At present the law declares that a liquor containing one-half of one per cent. of alcohol according to volume is intoxicating liquor, thereby puzzling many a bibber.

Two officers ambushed in Virginia, two wounded in Kentucky, three vessels overhauled, thousands of cases of liquor seized aboard, three runners killed, 24 of 29 officials of Mullen, Idaho (the State of Senator Borah) convicted for wholesale liquor violations—this was the news in Washington, which seems full of firewater and fireworks at the end of the old year. For the new year we take the following agitating agenda from a Washington dispatch:

1. Senator Borah ready to deliver broadside in senate against dry law enforcement methods as soon as congress reconvenes.
  2. Justice department to lay before supreme court test case whether purchaser of liquor can be jailed under existing law.
  3. House plans to act on President Hoover's request for appointment of joint committee to study prohibition situation.
  4. Senator Jones, father of famous "five and ten" law, confers with Chairman Wickersham of Hoover law enforcement commission in "stand-by-the-President" move.
  5. Scott McBride, Anti-Saloon league head, adopts "hands off" position on Borah-Hoover prohibition controversy.
  6. Coast Guard to continue drastic methods against rum running boats.
  7. Senator Thomas (Oklahoma) charges government permits for manufacturing whiskey open the way for graft.
- All this being so, why should we add any comment? Wherefore, we say naught. The battle is in other hands, and rages, and the end is not in sight.—Biloxi-Gulfport Herald.

### UNCLE SAM—SPACE GRAFTER

Newspapers are being flooded every day with free advertising in the guise of news.

Probably the biggest space grafter among the many enterprises, large or small, is the U. S. Government, sometimes called "Uncle Sam."

Early in December a recruiting officer was established in Yazoo City in charge of a young sergeant, Albert DeCuir, who has now been transferred to New Orleans, and replaced by Sgt. Harry Leavitt.

Sgt. Leavitt handed us a news item referring to the service here. Upon being questioned about the matter, he stated that so far they had rather indifferent success in Yazoo City in getting recruits, and offered us a notice about the work in the hope that the future work here might be more successful.

Purely as a matter of courtesy to Sgt. Leavitt, who seems to be a nice chap, we told him frankly that his reading notice was nothing short of bald-headed advertising, and if we followed our rule we would chuck it in the wastebasket to keep company with hundreds of columns of similar matter that had gone before during last several years. But as a courtesy to him, we would run it and it appeared in Monday's Sentinel. In other words, we decided to give Uncle Sam who seems unable to pay for his advertising, this space merely to assist the young man, as a matter of courtesy, but not because we think it has any real news value.

We gather from Sgt. Leavitt that the permanency of the Yazoo office will depend upon the success of the movement here, and if Uncle Sam would follow the policy of other successful business enterprises, he would appropriate sufficient money to advertise his wares here, and no doubt he would then make a success of it. So this is one time when Uncle Sam is permitted to get his advertising in the Sentinel without charge, but the gates are barred against him from now on.—Yazoo City Sentinel, Jan. 1.

### SEARCHING FOR FACTS

Facts are becoming more popular in Mississippi every day. People who were content to listen in rapt attention to the bluff and bluster of a bombastic politician ten years ago are turning aside in disgust when a public official who should know better or a community booster who knows nothing at all tries to palm off glittering generalities. More and more our citizens are insisting that every social, economic and political situation be calmly appraised in the light of the actual facts and appropriate steps taken on the basis of careful deductions from facts.

Just as Professor S. H. Hobbs and his associates of the University of North Carolina conclude their preliminary study of Mississippi conditions, word comes that a Chicago firm headed by Anderson, a reputable industrial engineer, has entered into a contract with the Illinois Central Railroad to conduct an industrial survey of communities served by its lines. Gulfport has been selected, according to press reports, as the starting point for this work, and January 14th has been designated as the time for this latest study to begin. The more facts we can uncover, the more we can move ahead. The more we know about ourselves, our community and our country, and our state, the better qualified we are to act intelligently as individuals, in our own business affairs, in our civic and commercial organizations, and at the ballot box. "Know the truth and the truth shall make you free," is a maxim as true today as when first uttered in the long, long ago.—Hattiesburg American.

LOCAL HAPPENINGS CHRONICLED IN THE SEA COAST ECHO

#### TWENTY YEARS AGO

Miss Louise Saucier of Pass Christian, is the charming guest of Miss Edwige Saucier.

Mr. Ed Marson of Kiln was a welcome visitor to Bay St. Louis during the week.

Mrs. Catherine Spotorno and Miss Eugenie Spotorno have gone to Marksville, La., where they will spend a while visiting their relatives, Mr. and Mrs. Allen Bordejon.

Mr. H. C. Todd, a prominent young man of New Orleans, left Wednesday for his home after spending some time very pleasantly as the guest of Judge J. A. Breath and family in Main St.

Hon. Jos. E. Saucier, the popular and efficient tax collector, has been having a "hog killing time" the past few weeks when several big home-fed "porkers" were slaughtered on his premises. For size his hogs "take the blue ribbon," and to the flavor of the meat we can well attest, since he has favored the editor with a liberal present of same.

It is with deep regret we chronicle the demise of Dr. Alphonse Peyroux, Jr., which occurred at the family home in St. George street, this city, on Thursday morning. Dr. Peyroux was a native of New Orleans, born 36 years ago. Some fourteen years since he was married in this city to Miss Laura Fayard, daughter of Mr. and Mrs. Casimere Fayard. Their wedding was a notable one, and the first to be performed in the then new Main Street Methodist church. This union was blessed with one child, a son, Nolan, aged 11 years. The widow, son and parents of the deceased and the families Fayard, Gardos and Gragnon and others have the sympathy of the entire community and of friends aware in the sorrow which has fallen as a shadow across the threshold of the home.

Jules Favre, Jr., is erecting a number of small dwellings on Nicholson avenue for employees of Mr. A. J. McLeod.

Rev. Father J. M. Pendergast, pastor of the Church of Our Lady of the Gulf, has been absent during the week visiting the Bishop at Natchez in the interest of the church.

Mr. Thos. L. Evans went down to New Orleans on Tuesday morning, where he spent the day with friends and attended to some business.

Misses Angeline and Nancy Parillo and little niece Alma Betz spent Sunday in Biloxi, where they were the guests of Mrs. B. Tucci.

Mrs. N. B. Hutton and Mr. and Mrs. John Morgan, of New Orleans, were Sunday visitors, guests of their relative Mrs. Josie Hutton.

#### TEN YEARS AGO

Dr. Wm. Cain left during the week on a business trip to Washington, D. C. He was accompanied by his brother-in-law, Mr. Bruce Rishton.

Representative W. J. Fleming of Hancock county, has been assigned two appointments—committee on education and committee on roads and ferries.

Mrs. John Osoinach and Miss Cleo Osoinach were members of a party that witnessed a performance at the Tulane Theatre, New Orleans, Thursday night.

Miss Jennie A. Patillo, from Nova Scotia, Canada, will reach here Tuesday, the 20th, to visit at the home of Mr. and Mrs. J. N. Wisner on the beach front.

Builders are making considerable headway on the dwelling for Mr. Charles Frank, the well known Southern baseball magnate, who will make his home here in the future.

Mrs. R. H. Prados has as her guests at the family home in Carroll avenue her two sisters, Mrs. B. L. Angers and Miss Regina Ragan of New Orleans who are spending the week here.

Mr. and Mrs. E. J. Gex, Miss Vivian Ducatel and little Misses Laurin and Norma Gex spent Thursday in New Orleans.

Adele Cospolich, residing out on the Blue Meadow road, where she had dwelt for many years and lived to see two generations of her own family, died Thursday morning of senile debility. "Tante Adele," as she was better and more widely known, had officiated in the homes of many of our best families in former years when the hour supreme had preceded the announcement of a new arrival in the home, and she was regarded with more than ordinary sentiment and respected by all who knew her.

## Dependable for 79 Years

Modern life is highly exacting in its demand upon the railroads. Freight requirements are an illustration. The railroads must move freight in shipments ranging from packages to trainloads over distances of from few miles to thousands, accepting traffic as it is offered, handling it promptly and delivering it safely and punctually. The dependability of the railroads in meeting such exacting demands under all conditions explains their pre-eminence as a means of transportation.

The importance which the railroads place upon the dependability of their service is seen when there is a threatened interruption of service. They have won public renown and community gratitude in fighting floods. They have as diligently fought against the ravages of snow, ice and hurricane. Disaster always finds them striving to keep their lines in operation and to restore service at the earliest possible moment on a line where service has been temporarily interrupted.

The reputation of a railroad is staked upon its dependability as a servant of the public. The skill with which the railroads strive to uphold that reputation is evident in the dependability of railway performance.

The Illinois Central System has such a reputation. For more than three-quarters of a century it has been upbuilt and strengthened year by year in dependably filling the exacting transportation needs of an ever-progressing territory.

Constructive criticism and suggestions are invited.

## STANISLAUS COLLEGE ECHOES

### BASKETBALL.

The day after the boys returned from the Christmas holidays, the following boys were picked from the basketball squad that had been practicing before the holidays, as the candidates for the first team: C. Genard, Toca, Saucier, Colotta, B. Hallissy, Glover, Crowe, Brüssard, J. Lilley, F. Hallissy, Wittman, Kidd, D. Genard, Ducassa, Verlandes, E. Blaize, and Gremillion. Practice began last Friday and the squad is now working hard for the opening game which is not far off.

Four of last year's regulars are back again, Toca, Genard, Saucier, and Colotta. The team is looking forward to a great season and many of the students have visions of St. Stanislaus being crowned National Catholic High School Champions this year.

There will be also three other teams—the 145, 135, 125 lb. teams.

### THE NEW BUILDING.

The new building is now under construction. The ground has been cleared away and the foundations, which are of concrete are being laid. The work is progressing very quickly. Most probably it will be completed, and ready for use before the end of the session.

### VACATION IS OVER:

All the boys returned from their Christmas holidays, and each brought back that "Stanislaus Smile" with him, with the intention of having a real success in examinations, which will be held, beginning Wednesday, January 18th.

Bro. Peter expects good grades from each and every boy, but not for his benefit. No, the boy himself. Emmett Chassagnon has not yet returned to the college. He is confined to his home due to an operation for appendicitis.

All wish him a speedy recovery and hope to see him back with us soon.

### WE WONDER WHY?

Falgot was in such a hurry Thursday.

Lyons has been so worried lately. The graduates are so unhappy.

Slade left a day later than the crowd. Pat Wilson is called "Bashful Baby."

Buster has quit following the girls. LeBoeuf got tired of wearing his class ring.

Some people act sarcastic about not receiving Christmas cards.

Who brought a Taxidermy? Johnson couldn't bring his girl home. Foster didn't walk back from the train.

Charley wanted to get out in town Sunday night.

Some girls are quickly forgotten. Brandt is going to start washing the girls.

Mr. Julio Andrade was teased Sunday evening.

FOOTBALL:  
Eighteen letter sweaters were given out this year to the following boys: Capt. Geo. Falgot, B. Hallissy, C. Genard, D. Genard, L. LeBoeuf, G. Toca, A. Glover, G. Gremillion, Benedetto, B. Blaize, B. Camors, A. Lanan, I. Colotta, Manager S. Reyes, and Coach Perkins.

### PENALTY WILL BE ASSESSED AGAINST LICENSE PURCHASE

Sheriff J. C. Jones States That 25 Per Cent. Penalty Was Charged Since January 1.

Sheriff J. C. Jones states that approximately 1200 auto licenses were sold in Hancock County before January 1, and these did not have to pay the 25 per cent penalty which the state law provides must be assessed against those purchasing licenses after that date. He said that the 25 percent penalty had been assessed January 1 and succeeding days and would continue to be assessed against all who failed to buy their tags before January 1.

He stated that the officers of the county will arrest those who have not bought their tags when cars are seen driving with the 1929 tags. He stated that the first arrest was made Monday and that daily such arrests will be made. "However, I do not like to take the people before the judge and have a fine against them for failing to buy tags and am trying not to do this," Sheriff Jones said. "But unless people come and buy their tags we shall have to arrest them and have them fined for violating the law," he said. He urges everyone who has not already secured 1930 tags for motor vehicles to do so before arrested.

There are approximately 2200 motor vehicles in Hancock county and only slightly over half of this number secured their tags before the penalty went into effect.

## GORDON THOUGHT THAT HIS CASE WAS HELPLESS

"Before I took Sargon I had stomach trouble so bad I lost sixty-two pounds. Five years ago I went to a famous clinic and they said my condition was very serious, and advised me to live on goats milk. I paid \$3,000

R. D. GORDON

for a herd of pedigreed goats and have lived principally on goats milk ever since. Even then my liver was so inactive I've had to take four to six grains of calomel every week for the past five years in order to keep on my feet at all.

"I'm now on my third bottle of Sargon and have gained back nineteen pounds of my lost weight already. Sargon Pills regulated my liver and thank goodness my calomel days are over at last. I feel more like my old self than in five years and wouldn't take \$5,000 cash for what Sargon has already done for me."—R. D. Gordon, Tulsa.

## PICAYUNE BEGINS OPERATION OF 16,000 EGG INCUBATOR

All-Electric Automatic Plant  
Of Picayune Hatchery by  
Otho Rester Inaugurated

The Picayune Item newspaper tells of an interesting and constructive project actively inaugurated in that locality a few days since, and which enterprise might stimulate others to do likewise.

The Item says yesterday morning (Monday) at 9:00 o'clock a current was turned on the large all-electric automatic incubator in the plant of the Picayune Hatchery Company. In a statement made to a representative of the Semi-Weekly Item, Mr. Otho Rester, manager, stated the outlook and demand for baby chicks were never better. The hatchery is located on Jackson highway opposite the Picayune Supply Company. The building is a brick one story structure, 25 x 70 feet, built especially and exclusively for the hatchery and its kind.

by law. The said Hancock County Bank shall be and is hereby declared the County Depository. All members present voted in favor of said motion. Supervisor H. S. Weston because of illness was absent and excused and did not take part in this procedure. It is further ordered that Emilio Cue, president pro-tem of this Board be and he is hereby directed to sign the commission of the Hancock County Bank as County Depository.

Be it ordered by the Board that the Board adjourn until Tuesday morning, January 7th, 1930, at 9:00 o'clock A. M.

EMILIO CUE,  
President Pro-Tem.

## SHOOTS BOTH HANDS FROM NEGRO'S BODY

Charlie Hill, negro, 24, is held in the county jail on \$5,000 bond charged with assault with intent to kill a waiting action of the grand jury, as a result of having gotten into a shooting affray with Cornelius John, 18 year old negro, at Logtown, New Year's night, and Cornelius Johns is at the Picayune hospital suffering from having had both hands shot off by the bullets from the shot gun which Hill is said to have used. Johns is said to have been armed with a pistol in the gun battle which arose over some "row."

dred lines. Mr. Rester expressed the opinion that the incubator now installed, notwithstanding its great capacity, would soon prove inadequate to supply the demand for baby chicks and accommodate the customers, and that another machine of equal capacity would be installed in the same building which was built for three incubators, should that many be needed for the trade. The plans of the Hatchery Company are very extensive. In addition to hatching eggs and selling baby chicks, the company plans to handle everything needed by the poultryman and to handle their surplus for which they will pay market prices. This phase of the business will require the erection of a poultry brooder where the poultry will be kept and fed until market prices and quantities are sufficient for shipment. The capacity of this brooder is sufficient to accommodate 900 chickens of marketable size. It is predicted that this new institution will be no less important than the creamery to the upbuilding of Picayune and surrounding communities. Both are calculated to help the farmers help themselves and the farmers are responding to these proffered opportunities in fine fashion.

## THE GREATEST CHEVROLET IN CHEVROLET HISTORY

Today, Chevrolet presents the Greatest Chevrolet in Chevrolet History—a smoother, faster, better Six—with beautiful new bodies by Fisher.

Basically, it is the same sturdy, substantial Six which won such tremendous popularity in 1929. But it is a greater car in every way—for there are scores of vital improvements which contribute to comfort, performance, endurance and safety.

An improved six-cylinder valve-in-head

motor, with its capacity increased to 50 horsepower; four Delco-Lovejoy hydraulic shock absorbers; fully-enclosed internal-expanding weather-proof brakes; a new dash gasoline gauge; heavier and stronger rear axle; Fisher non-glare windshield; larger tires—

—these are typical of the many improvements found throughout the entire design.

But most impressive of all—this smoother, faster, better Six is available—

## At Greatly Reduced Prices

During 1929, more than a million three hundred thousand persons bought six-cylinder Chevrolets. This enormous volume has made possible many savings in the Chevrolet factories—and, in keeping with its long-established policy, Chevrolet is sharing these savings with the public. No written description can do justice to the extra value and quality provided in this new car. Visit your Chevrolet dealer—see this car—ride it—and judge for yourself the sensational value it represents.

—Dr. and Mrs. C. M. Sipp had as their guests the early part of the week Mrs. Shipp's niece, Mrs. Sam Fields and Mrs. Montgomery of Centerville, who motored to the Coast to bring Miss Lydia Boyd Blount, sister of Mrs. Fields, back for the opening of the Bay St. Louis school of which she is a faculty member.

—January is the month to place fertilizer in the ground and mix well with the soil. This gives sufficient time for it to rot before the seed is planted. 100 pounds of SHEEP FERTILIZER is equal to a whole wagon load of barn yard manure. The ATLAS DRUG STORE supplies this in all sizes from lb. sacks to 100 lb. sacks.

—Mrs. A. F. Fournier who is at the Hotel De Soto in New Orleans for the winter season, spent Wednesday in Bay St. Louis and Waveland, coming over especially to attend the meeting of the Waveland Parent-Teachers Association of which she is president, and to confer with the King's Daughters committee regarding the play to be given Thursday and Friday of next week.

—After undergoing another surgical operation in New Orleans, Hon. W. W. Stockstill has returned home, and he now has hope of regaining his old time health and vigor. He has certainly had a hard time of it since last May 29th when he was forced to close his law office and go to bed. His many friends rejoice with him and his good wife at the prospect of his early recovery.

—Mr. and Mrs. V. D. Blaise, Jr., spent the holidays at Little Rock, Ark., visiting Mrs. Blaise's parents, Mr. and Mrs. O. J. Gillett, spending the time at the handsome country residence which the Blaises purchased at two years ago. This was the first Christmas when the Blaises had spent with the Gilberts on this estate and nothing was left undone to make this a memorable visit of delight to the Blaise family. The Blaises returned to the home party of relatives to the west on Monday.

### WORK AND PLAY AT S. J. A.

#### Some New Year Thoughts Of a Senior.

The old year has gone, like a tiny wave across a great body of water—a wave which was lit one minute with sunlight, and darkened another minute by clouds.

Behind us lie the paths which we have made and which are either straight or winding.

Before us lies the Great Beyond where sorrows and joys are hidden in the shadows. Confronting us there paths we have never traversed. They may carry us to sunshine or darkness; they may lift us to Heaven; they may drop us to Hell. We must decide today, whether we wish to rise or fall.

The New Year has begun and we do not know what it will hold for us—so, we must steer this new ship of 1930, without fear. The days may not always be sunny, but let us not get discouraged. Come!—Let us sail on with "Faith" at the wheel, "Faith" watching the compass, and "Charity" on the bridge.

#### Holidays Are Over—Hard Work Begins.

Yes, the new term started Monday with hard work. Even though homework was not assigned over the holidays it is no sign that the teachers did not put the students to hard work on their first day back at school.

Of course most of the girls have made New Year resolutions but will be the time when we can find out which girls stuck to their school resolutions. Come on girls! Let's work hard and make June 1930 the crown month of our school year with high averages and splendid results in the Washington Exams.

#### Basket Ball.

The Jays are to play Pass Christian at College Gym, Jan. 10. The Jays have started Basket ball practice again since the New Year with extra pep and vim. Not the least of their New Year resolutions is their determination to make 1930 a glorious year of Basket Ball victories for S. J. A.

They will have a chance to prove the strength of their resolutions to us next Friday when the first game of the season will be played against the Pass Christian High School Team at the College gym.

Don't forget friends of S. J. A. the Jays need your help to bring them to victory. Be at the College gym next Friday afternoon at three-thirty and see them put it over the Pass Christian team and incidentally start their 1930 record with flying colors.

#### Fund Takes a Big Jump During Holidays.

Santa Claus did not forget S. J. A. during the holidays in spite of the fact that he had such untold numbers of fond believers to be mindful of the gym fund, especially took a broad jump as a result of the substantial checks and generous donations which were tendered to it at Christmas time. To each and every one of these loyal and devoted friends and benefactors S. J. A. wishes to extend most hearty thanks and to add the hope that He who sees and watches in secret may reward them a hundred fold for their generosity.

#### New Year Wishes.

This is S. J. A.'s first appearance in the columns of the Echo for the year 1930—but even though it is a little late S. J. A.'s New Year wish to its patrons, friends and benefactors was never heartier or better. May 1930 prove a bright, happy and prosperous year for you; may it be replete with heavenly graces and blessings and may it in addition bring to each and every one of you the realization of your fondest hopes and dreams.

### ED. T. BECKER GRIEF-STRICKEN

A jury was empanelled at the county courthouse last Saturday morning for the purpose of inquiring into the mental condition of Edward T. Becker, well known and long-time resident of Bay St. Louis, the result being that he was found deranged and ordered transferred to the State hospital at Meridian, to which institution he was conveyed on Sunday. It is thought that the unfortunate gentleman's condition is the result of grief over the tragic death of his son Andy Becker who was murdered by a negro on the Bay-Kihn road about two years ago, and which was followed some months since by the death of his wife. Mr. Becker has been a resident of Bay St. Louis for many years; known and respected by every one with whom he came in contact, and universal regret is expressed over his unfortunate condition. He was taken to the hospital by auto route accompanied by A. J. Piazza, Fred Bandier, Sr. and Clarence Tudy.
